Allowable Subject Matter

1. Claims 1, 3-6, 8-10, and 12-13 are allowed over the prior art of record.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record (Bliven et al (5,111,497) and Furse (6,868,357)) fails to teach a method and system for determining location of an open fault along a wire-line, serving digital subscriber equipment at a location remote with respect to a central office facility, the location of the fault being determined relative to a line card installed in the central office facility, the method comprising the steps of (a) applying an electrical stimulus to the wire-line from the line card; and (b) at the line card, measuring capacitance parameters of the wire-line in response to the electrical stimulus applied in step (a), and determining from the measured capacitance the distance from the line card to the open fault; and wherein step (a) comprises applying a prescribed frequency to the wire-line, and step (b) comprises measuring admittances of tip and ring portions of the wire-line to derive a sum distance value representative of the sum value of conductor lengths of tip and ring portions of the wire-line and the difference value between conductor lengths of the tip and ring portions of the wire-line, and processing the sum and difference values to determine the distance from the line card to the open fault as substantially described in independent claims 1, 5-6, 10 and 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
